

THE VISIBILITY CODES

VISIBILITY ACTION PLAN

Consistency Edition

Turn your result into
one clear next move.

KATRINA KAVVALOS

Your result is Consistency.

Your assessment suggests that your biggest gap right now is consistency. This means your value may not be showing up often enough, clearly enough or regularly enough for the right people to remember and trust you. You may have strong ideas and genuine expertise, but if your visibility is irregular, momentum becomes harder to build.

This Action Plan is designed to help you move from sporadic to consistent.

By the end of this Action Plan, you will:

1.

Identify the message, themes and formats you can repeat with confidence.

2.

Use ChatGPT to turn your best ideas into a realistic consistency strategy.

3.

Build a simple publishing rhythm and repurposing plan you can sustain.

4.

Create one clear consistency activation plan.

IMPORTANT

Consistency does not mean being online all day. It means becoming recognisably present often enough for the right people to remember you.

Use AI as a consistency strategist.

When you are trying to be more visible, inconsistency often comes from starting from scratch, overthinking, unclear messaging or choosing a rhythm that is unrealistic. To make this easier, I have included an AI ChatGPT prompt. It will help you identify what to repeat, what to simplify and what kind of visibility plan you can sustain.

How to use it

- ◇ Replace [AREA] with the area in which you want stronger consistency, for example your business, career, personal brand, speaking or creative work.
- ◇ Copy and paste both prompt sections into ChatGPT as one continuous prompt.
- ◇ Answer honestly about your current habits, strengths, schedule, capacity and what keeps breaking consistency.
- ◇ If the advice feels too broad, ask AI to simplify it and make it fit your real time and energy.
- ◇ Choose a rhythm you can sustain, not one that only sounds impressive.
- ◇ Keep refining until your plan feels clear, realistic and easy to continue.
- ◇ Save the final one page summary and use it to complete the worksheets in this Action Plan.

Useful replies if the conversation feels too broad or unrealistic

- ◇ "That still feels too ambitious for my schedule. Simplify it."
- ◇ "Which ideas should I repeat more often based on what I shared?"
- ◇ "Give me a content plan I can sustain in less than [X] hours a week."
- ◇ "Turn that into three content pillars and ten simple content ideas."

AI consistency prompt

Copy and paste both coloured sections into ChatGPT as one continuous prompt. Before you press Enter, replace [AREA] with the area in which you want stronger consistency.

SECTION 1 OF 2, COPY THIS INTO CHATGPT

Act as my strategic visibility consistency coach. Help me build a more consistent presence in [AREA] so the right people see me often enough to remember, trust and choose me.

Begin by asking which area I want more consistency in, what result I want that consistency to create, and what is currently making consistency difficult.

Ask me one thoughtful question at a time. Wait for my answer before asking the next question. Use each answer to ask sharper follow up questions. Challenge vague, unrealistic or overly ambitious answers. Help me simplify and focus.

Do not invent audience data, schedule capacity, content performance or resources. Use only what I tell you. Keep asking until you understand my message, strengths, schedule, bottlenecks, existing content and the visibility result I want, and I confirm that your summary feels accurate.

Explore these areas:

1. What I want to become known for and the opportunity I want my visibility to create.
2. The platforms, rooms or places where the right people are likely to notice me.
3. The content topics, messages, stories and ideas I could repeat.
4. The formats that feel most natural, effective and sustainable for me.
5. What has already worked, created engagement or generated response.
6. My strengths in communication, teaching, storytelling, opinion, demonstration or conversation.
7. My current consistency habits, and where I tend to disappear or stop.
8. My time, energy, resources, support and realistic weekly capacity.
9. The main bottlenecks, such as perfectionism, unclear messaging, lack of ideas, fear or not knowing what works.
10. Existing assets I can repurpose, including past posts, videos, podcasts, stories, client questions, media or interviews.
11. What rhythm would be realistic and sustainable for me.
12. What one repeated message or theme would create the strongest recognition.

When you have enough information, give me a concise summary of what you have heard and ask me to correct anything that is inaccurate.

AI consistency prompt, continued

Continue copying from the previous page. Paste both sections together into ChatGPT before pressing Enter.

SECTION 2 OF 2, CONTINUE COPYING

After I confirm the summary, give me three possible consistency strategies. For each strategy, explain the message focus, recommended formats, posting or visibility rhythm, why it fits, the expected benefit, the main risk and the minimum weekly commitment.

Then recommend the consistency strategy that appears strongest, and explain your reasoning clearly.

Create the following for the recommended consistency strategy:

1. My core repeatable message.
2. My three content pillars.
3. The two or three formats I should prioritise.
4. A realistic weekly visibility rhythm.
5. A repurposing plan that turns one idea into several formats.
6. Ten content ideas based on my message and pillars.
7. One profile or workflow change that would make consistency easier.
8. One simple content tracking method.
9. One specific practical action I can take next.
10. A one week visibility schedule.

End by asking what feels realistic, what feels wrong and what still feels unclear. Continue refining the consistency strategy with me until I say, **THIS IS THE CONSISTENCY PLAN I WANT.**

When I say **FINALISE MY CONSISTENCY PLAN**, give me a clean one page summary of the final strategy and my next three actions.

Do not press Enter until both sections have been pasted together.

Your consistency strategy

Use what you uncovered through reflection and AI conversation to decide what you will repeat, which formats you will use and what schedule you can maintain.

1. WHAT MESSAGE OR IDEA DO I NEED TO REPEAT MORE OFTEN?

2. WHICH THREE THEMES OR CONTENT PILLARS WILL I RETURN TO?

3. WHICH FORMATS FEEL NATURAL, EFFECTIVE AND SUSTAINABLE?

4. WHAT SCHEDULE CAN I ACTUALLY MAINTAIN EACH WEEK?

MY CONSISTENCY FORMULA STATEMENT

I will become more recognisable by repeating _____
through _____

Consistency activation plan

Consistency becomes easier when you reduce friction, repeat clear messages and prepare the next pieces of visibility in advance. Use this page to build one practical plan you can continue.
