

THE VISIBILITY CODES

# VISIBILITY ACTION PLAN

*Direction Edition*

Turn your result into  
one clear next move.

KATRINA KAVVALOS

# Your result is Direction.

Your assessment suggests that the biggest gap right now is direction. That means your visibility may lack a clear destination. You may have talent, experience and ambition, but without clarity it becomes harder to know what to say, who to reach and what opportunities to create.

This Action Plan is designed to help you move from uncertainty to clarity.

By the end of this Action Plan, you will:

1.

Define what you want to be known for.

2.

Identify the opportunity you want next.

3.

Use ChatGPT to help you clarify your direction.

4.

Choose one clear direction activation plan.

## IMPORTANT

Direction does not mean your life is off track. It simply means your visibility needs a clearer destination.

# Use AI as a clarifying partner.

Sometimes it is difficult to identify your own direction because you are too close to your own experience, have several interests, or feel pressure to choose perfectly. To make this easier for you, I have included an AI ChatGPT prompt. All you need to do is copy and paste it into ChatGPT and follow the instructions below. ChatGPT can then guide you and help you gain clarity.

## How to use it

- ◇ Replace the word AREA with the area you want direction in, for example business, career, personal brand, speaking or life.
- ◇ Copy and paste the full prompt from the next page into ChatGPT.
- ◇ ChatGPT will ask you questions. Answer one question at a time, naturally and honestly.
- ◇ The more detail you give, the better clarity you are likely to receive.
- ◇ You can type or use the voice feature if that feels easier.
- ◇ Keep going back and forth until you feel clearer and more certain.
- ◇ Correct anything AI misunderstands about you or your situation.
- ◇ Do not choose a direction just because it sounds impressive. Choose the one that feels aligned, specific and energising.

## Useful replies if the conversation feels too broad or generic

- ◇ "Can you ask me more specific questions?"
- ◇ "Can you help me compare these options?"
- ◇ "Can you summarise what you think I am saying?"
- ◇ "Can you go deeper and challenge me a bit more?"

# AI clarity prompt

Copy and paste both coloured sections into ChatGPT as one continuous prompt. Before you press Enter, replace the word AREA with the area you want direction in.

## SECTION 1 OF 2, COPY THIS INTO CHATGPT

Act as my strategic visibility clarity coach. Help me define a clear direction for my [AREA], and the visibility I need to build around it.

Begin by asking which area I want clarity in, such as my business, career, personal brand, creative work, leadership or another area, and what currently feels confusing.

Ask me one thoughtful question at a time. Wait for my answer before asking the next question. Use each answer to ask sharper follow up questions. When my answer is vague, broad, contradictory or based on what I think I should want, challenge me respectfully and help me go deeper.

Do not rush to give me a direction. Do not invent experience, qualifications, interests, goals or market demand. Use only what I tell you. Keep asking until you understand me accurately and I confirm that your summary feels true.

### Explore these areas:

1. What I most want to achieve over the next twelve months and over the longer term.
2. The work, topics, roles, audiences and industries I feel most drawn to.
3. The strengths, experience, results, stories and qualities people already recognise in me.
4. What I want my name to become associated with.
5. The specific opportunities I want my visibility to create.
6. The people, audiences and decision makers who would need to know me.
7. What I no longer want to be known for, and what I do not want to build.
8. My practical constraints, responsibilities, resources and current level of credibility.
9. The proof I already have, and the proof I would need to create.
10. Whether each possible direction feels emotionally aligned, commercially sensible and strong enough to commit to for at least ninety days.

When you have enough information, first give me a concise summary of what you have heard and ask me to correct anything that is inaccurate.

# AI clarity prompt, continued

Continue copying from the previous page. Paste both sections together into ChatGPT before pressing Enter.

## SECTION 2 OF 2, CONTINUE COPYING

After I confirm the summary, give me three possible directions. For each direction, explain why it fits, the opportunities it could create, the people who would need to know me, the evidence I already have, the evidence I would need to build, the main risk and the first practical move. Then recommend the direction that appears strongest, and explain your reasoning clearly.

**Create the following for the recommended direction:**

1. My North Star statement.
2. My clear known for statement.
3. The three most relevant opportunities to pursue.
4. The people and decision makers who need to know me.
5. My twelve month visibility focus.
6. A one sentence public profile statement.
7. One specific practical action I can take next.

End by asking me what feels accurate, what feels wrong and what still feels unclear. Continue refining the direction with me until I say, **THIS IS THE DIRECTION I WANT.**

When I say **FINALISE MY DIRECTION**, give me a clean one page summary of the final direction and my next three actions.

**Do not press Enter until both sections have been pasted together.**

## Your visibility direction

Use what you uncovered through reflection and AI conversation to turn possibility into one clear direction. If you still need more clarity, ask these same questions to ChatGPT before completing this page.

1. WHAT DO I WANT TO BE KNOWN FOR?

2. WHAT SPECIFIC OPPORTUNITY DO I WANT NEXT?

3. WHO NEEDS TO KNOW ME FOR THAT OPPORTUNITY TO BECOME POSSIBLE?

4. WHAT VISIBLE PROOF WOULD HELP THEM TRUST ME?

### MY VISIBILITY DIRECTION STATEMENT

Over the next ninety days, I want to become known for \_\_\_\_\_  
so that the right people begin to see me as \_\_\_\_\_  
and consider me for \_\_\_\_\_.
